## Area and Perimeter

Below are bird's-eye view sketches of several animal habitats and cages. Using the formulas below, calculate both the area and perimeter of each cage. Be sure to label the units.

To find the **area of a rectangle**, multiply the length by the width.

**The formula is:  $A=L \times W$**

Where A is the area, L is the length, and W is the width.

The **perimeter of a polygon** is the length of the distance around the outside of the polygon.

**The formula for a rectangle is:  $P=2L+2W$**

Where P is the perimeter, L is the length, and W is the width.

## Design a Diorama

After reading *Maestro Stu Saves the Zoo*, create a three-dimensional diorama. A diorama is a way to display an exciting scene in a small space. Use a shoe box or other small box. Then, gather craft items such as glue, construction paper, scissors, pipe cleaners, glitter, crayons, etc. Pick your favorite scene or picture from the story and bring it to life! Use this sheet as a planning guide. Make a list of all the materials you will use, and draw a sketch of what your diorama will look like. When you have finished brainstorming, create your three-dimensional display.

## Idioms

The story *Maestro Stu Saves the Zoo* contains many idioms. An idiom is a phrase or expression that has a hidden meaning. For example, if you have “ants in your pants” there really aren’t ants crawling in your pants. It has a hidden meaning that you are excited about something and can’t sit still. Read the sentences below and determine the meaning of each idiom.

- 1) Thomas was **on pins and needles** while waiting for the doctor to give him his shots.
- 2) We can’t go swimming today. It’s **raining cats and dogs**.
- 3) That spelling test was a **piece of cake**.
- 4) This dinner looks delicious, let’s **chow down!**
- 5) The baby deer are having a **field day** in the cornfield.
- 6) Tomorrow is the first day of school. You better **hit the hay** early tonight.
- 7) Anna was having a hard time understanding fractions, but after asking for help, she could finally **see the light at the end of the tunnel**.
- 8) I saw Jacob at the store yesterday. It’s a **small world**.
- 9) If I have to run another mile, I might **run out of steam**.
- 10) **Hold your horses**. We’re not ready to go yet.

## Analyze the Table

The fictitious table below shows the types and numbers of animals in a zoo over five years. Use the table to answer the questions below.

**Number of Animals in the Zoo Each Year**

<b>Animal</b>	<b>2008</b>	<b>2009</b>	<b>2010</b>	<b>2011</b>	<b>2012</b>
<b>Monkey</b>	12	14	12	16	12
<b>Elephant</b>	4	4	4	4	5
<b>Penguin</b>	20	26	22	18	19
<b>Lion</b>	5	5	7	6	6
<b>Tiger</b>	6	7	8	7	8

1. What animal had the fewest number in their cage in 2010? \_\_\_\_\_
2. Which animal population increased the most from 2009-2010? \_\_\_\_\_
3. Which animal population had the least change from 2008-2012? \_\_\_\_\_
4. How many more penguins were there than monkeys in 2008? \_\_\_\_\_
5. What is the only animal that had fewer in 2012 than 2008? \_\_\_\_\_
6. How many more tigers were there than elephants in 2010? \_\_\_\_\_
7. How many monkeys, elephants, penguins, lions, and tigers were there total in 2008? \_\_\_\_\_
8. How many more penguins were there than lions in 2011? \_\_\_\_\_
9. If the zoo got 8 more lions in 2012, how many would they have total? \_\_\_\_\_
10. What do you notice about the elephant population? Why might this be? Make a prediction and share your answer with a classmate. \_\_\_\_\_
