SEA CREATURES

Tallulah knows many sea creatures - a blowfish, an octopus, a sea turtle, etc. Take a few minutes to brainstorm what kind of sea creature *you* would be and why, and write about it in the lines below.

WHO AM I?

An estuary is where seawater mixes with freshwater. Estuaries are filled with all kinds of mammals, fish, and birds. Test your estuary IQ by drawing lines to match the animal with the correct description.

I can swim on the surface of the water and mostly eat small fish.

I am stocky, and my colors are beautiful.

I spend about half my time on water and half my time on land.
But when I move on land, I have to flop on my belly.

I am a mammal that can dive deep below the water's surface. I grow to an average of 10 feet. In some areas, I have become endangered.

I am long and lean and have webbed feet. I am playful and live in what's called a "den."

Did You Know...

that the Great Lakes make up the largest surface freshwater system on earth?

Great Lakes Quiz

Test your knowledge of the Great Lakes and see if you have what it takes to be the next Great Lakes mermaid!

Directions: Write the letter of the correct lake next to each description.

A .	Ontario	B. Erie	C. Huron	D. Superior	E. Michigan
	_ The small	est lake b	y volume.		
	_	r from all vith room t		Great Lakes cou	ıld fit inside
	_ The 6 th la	rgest fres	shwater lake	in the world.	
	_ It has the 30,000 isl	J	horeline of t	he Great Lakes,	including its
		the base o	9	lls and is the sm	nallest of the

TREASURE HUNT

You and Turtle are searching sunken ships for treasures in the Great Lakes. Count how many treasures you find on your journey by using addition and subtraction in the story problems below.

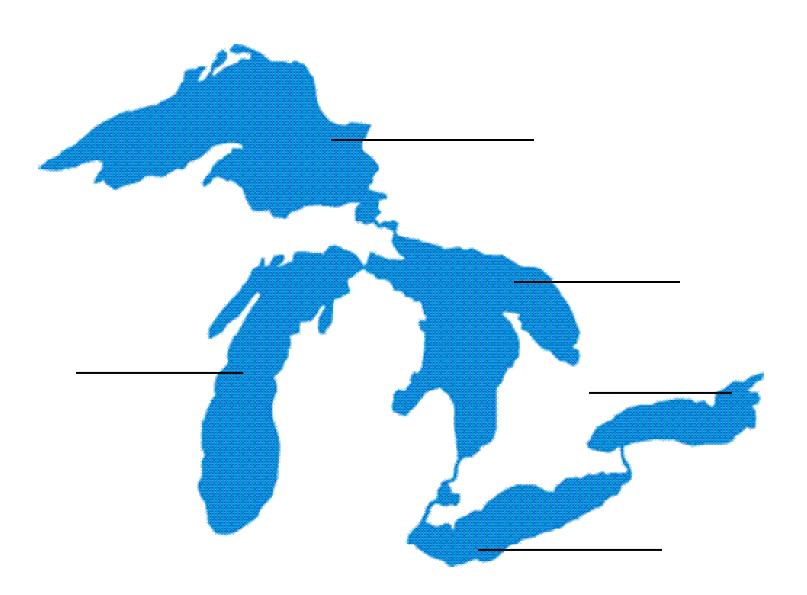

Label the Lakes

Directions: Write the name of the correct lake on the lines provided.

Writing Prompt

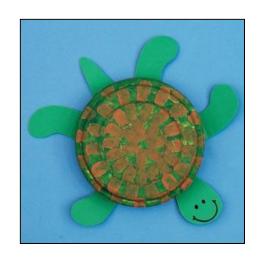

In the prologue, the author uses a quote by Pablo Picasso that states "Everything you can imagine is real." Do you agree or disagree? Why or why not? Explain your answer in the lines below.

Turtle Time!

Activity: Create your own sea turtle

Materials:

Paper plates
Glue
Scissors
Construction paper
Crayons and/or paint
Wiggly eyes

Directions: Flip the plate over so the bottom is facing up and draw a turtle shell design. Draw the head, tail, hands and legs on the construction paper and cut them out. Color them with green and a bit of brown and glue them to the plate accordingly. Don't forget the wiggly eyes!

NAMES

Many names have meaning. For example, "Tallulah" means "leaping water." Take a look at the examples below then research the meaning behind *your* name. Why did your parents choose it? What is its origin? Who else shares your name? Write a few sentences in the lines below.

There is also meaning behind the names of the Great Lakes:

- **Lake Erie** is named after the Erie Tribe of Native Americans who lived along the lake's southern shore.
- **Lake Ontario** means "lake of shining waters."
- **Lake Huron** is named after the Huron people who were its early inhabitants.
- **Lake Superior** means "upper lake," but is referred to by the Ojibwe as "gichigami" meaning "big water."
- **Lake Michigan** is believed to have come from the Ojibwe word "mishigami" meaning "great water."

Headlines

The goal of this activity is to summarize the main idea, concept, event, or topic of a story using only a few words - just like a newspaper headline.

Directions: After reading *Tallulah: Mermaid of the Great Lakes,* write a headline that represents the main idea of the story. Then, draw a picture to go along with it. Be creative!

Headline:_			

Use the space below to draw a picture to go with your headline!

Vocabulary

Using a dictionary, thesaurus, and your own vocabulary knowledge, fill in the spaces below.

Find another word for ship :
Find a word that is a number:
Find a word that means the opposite of tiny :

Writing Prompt

If you could create a 6th Great Lake, what would you name					
it? Where would it be? What would make it different from					
the other Great Lakes? What would it be used for? Write					
about your lake in the lines below.					

Interview with the Author

"All our knowledge results from questions, which is another way of saying that questioning is our most important intellectual tool." - Neil Postman

Questioning is an important tool that helps fuel our learning. Good readers ask questions before reading, during reading, and after reading. It is important to understand the different types of questions and when to use them.

Directions: First, read through the info below. Then pretend you are interviewing the author of *Tallulah* and come up with some questions you might ask. Be creative!

Thin questions (closed questions) generally have an obvious answer that can be answered using one or two words. These questions give you the facts.

Examples: How many planets are there? Do you like apples? How old are you? What is your favorite season?

Thick questions (open questions) require more thinking. The answers are usually long and require you to think and reflect.

Examples: Describe your favorite activity. Tell me about your family. Why is the sky blue? What if there were no trees?

Questions to ask:

Argumentative Writing

According to *Key Points of the Common Core Curriculum*, the adoption of college and career-ready standards includes an addition of argumentative writing at all grade levels. The ability to write logical arguments based on substantive claims, sound reasoning, and relevant evidence is a cornerstone of the writing standards. Students are used to aggressively convincing a reader to take their side in persuasive writing. However, argumentative writing is much more balanced. It requires the development of both sides of an issue, offering several claims for one side while acknowledging that there are valid counterclaims from the opposition. Argumentative writing is not about winning to "get" something, but rather giving the reader another perspective to consider on a debatable topic.

Using the Great Lakes as a source for bottled water has been a topic of much debate. While one side aims to protect the world's largest freshwater resource, the other assures that the Great Lakes are a renewable natural resource and there is plenty to go around.

Directions: Copy the following link into your web browser and read the article:

http://washingtonpost.com/wp-dyn/content/article/2008/09/28/AR2008092802997.html

When finished, pull out a separate sheet of paper. Using your own background knowledge as well as researched facts, write an argumentative essay that provides information on both sides of this issue. Remember, the goal is not to "win" one side, but to inform your reader about both sides of this current debate. Also, don't forget to cite your sources!

Name Acrostic

Mnemonic devices are techniques a person can use to help improve their ability to remember something. One type of mnemonic device is an acrostic. The "HOMES" acrostic is often used to remember the names of the 5 Great Lakes.

Huron

Ontario

Michigan

Erie

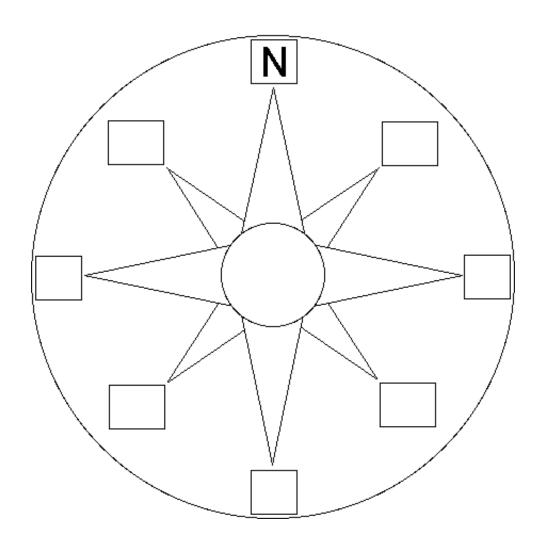

Superior

Using the letters in your name, create an acrostic that describes YOU! Each letter will represent something that others may not know - an activity you enjoy, your favorite book title, an adjective that describes your personality, etc. If you'd like, draw pictures to represent each one letter.

Which Way?

Tallulah and Turtle traveled a long distance to get to the Great Lakes. How do you think they knew how to get there? Most likely, they used cardinal directions!

The four cardinal directions (also known as cardinal points), are north (N), east (E), south (S), and west (W). There are also intermediate directions – northwest (NW), northeast (NE), southwest (SW), and southeast (SE). Using the compass below, fill in both the cardinal directions and the secondary directions.

What's Next?

The goal of this activity is to identify the sequence of events in *Tallulah: Mermaid of the Great Lakes.*

Directions: Read the story then cut out the sentences listed below and place them in the correct order. Check with a partner to see if you were correct!

When you're finished, mix up the sentences. See if you can write a short story using the *new* sequence of events. How does this change the meaning of the story?

Tallulah and Turtle watch people playing and swimming at the beach.	
Tallulah tells all of the sea creatures that there is no gem for her.	
Tallulah finds her gem!	
The sea creatures gathered to say good bye to the mermaids and wish them luck in their search.	good
Sea Turtle told Tallulah all about the Great Lakes.	
Turtle and Tallulah spent the day searching islands and shipwrecks.	
Tallulah rested in a cove.	

Reading Reflection

After reading *Tallulah*, answer the following questions with a partner, or discuss it as a class. There are no right or wrong answers!

- 1. When the other mermaids found out that Tallulah couldn't find her gem, why didn't they try to help her?
- 2. Why was Turtle willing to take Tallulah to the Great Lakes? How did he know about them?
- 3. What was the author's intention by noting that Turtle glanced at Tallulah's tail on several occasions?
- 4. What do you think happens to Turtle after Tallulah finds her gem? Where does he go?
- 5. Why did the author have Tallulah forget about finding her gem? What do you think she was trying to tell the reader?
